DAVIS & PITMAN,

At No. 12 Church Street.

Terms $6,00 Per Annum.

ADVERTISEMENTS will be inserted for $1,00 a square for the first insertion and 25 cts. for each subsequent insertion. Ten lines or less, Nonpareil type, (like this) make a square.

Transient Advertisements must be paid for in advance.

The privilege of yearly advertisers (of all classes) is limited to their own immediate business, in their own name. It does not include Legal Notices, Auction Sales, Lost and Found, Cards, Wants &c. When contracts for yearly advertising are discontinued before the year expires, the publishers will claim the right to charge for the advertising done at the transient rates.

Editorial Notices or Articles to be inserted in the reading columns will be charged fifty per cent. extra, measuring by the space occupied.

Special Notices will be charged one-third more than the usual advertising rates.

No paper discontinued until arrears are paid, unless at the option of the publishers.

All bills are payable quarterly.

THE GREATEST INVENTION OF THE AGE

IS THE

COLD WATER

SELF-WASHING

SOAP.

No heating of water before you can commence to wash; no boiling your clothes after they are washed and filling the house with steam; no blueing required to make your clothes look nice and white; no washboard or machine required to remove the dirt and wear out your clothing. This Soap will do the work in one half the time, and do it better in Cold Water than any other Soap, with all the hot water and machines that can be used, and WITHOUT THE SLIGHTEST INJURY TO THE GARMENTS.

For washing Woolens, Prints, and any fabric where other soaps injure the colors, this leaves them clean and bright as new. For cleaning Jewelry, Silver and Plated Ware, Door Knobs, Paint, &c., by merely washing in the suds there is no equal to it.—Try it once, and you will use no other soap. Tell your Grocer that you want the Patent Cold Water Self Washing Soap, made by R. E. Dwelly, 426 Eddy street, Providence, R. I., whose name will be on every bar and wrapper.

SOOTHING AND HEALING

BALSAM.

This valuable preparation has been before the public during the past nine years, and has wrought some of the most astonishing cures. The proprietor challenges the world to produce its superior as a remedy. It has gained a very wide popularity, and is eagerly sought for wherever its great curative virtues are best known.

It has proved infallible for Burns, Scalds, Frozen Limbs, Bruises, Sprains, Wounds of all kinds, Pains in the Side, Back or Shoulders, Piles, Corns, Chilblains, Chapped Hands, Stiff Neck, Ague in the Face or Breast, Ear-Ache, Deafness, and Loss of Motion of Limbs, Poisoning, Erysipelas, Inflammation of the Eyes, Inflamed Irritation of the Skin.—For Rheumatism it is not a certain cure, yet hundreds have been relieved by it when other remedies had failed.

AS AN INTERNAL MEDICINE, when taken in season it will cure Croup, Hoarseness, Sore Throat, Dry Cough, Asthma, Whooping Cough, Canker in the Mouth, Sore Lips, Inflammation of the Bowels, Dysentery, Kidney Complaint, and Cholera Morbus. The "Balsam" has also given great relief in cases of Elephantiasis.

No person need fear to use this medicine, as it is PURELY VEGETABLE in its composition. It is soothing and healing in its influence, and may be given to any age or sex with perfect safety.

A CARD.

A Clergyman, while residing in South America as a missionary, discovered a safe and simple remedy for the Cure of Nervous Weakness, Early Decay, Diseases of the Urinary and Seminal Organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been cured by this noble remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the recipe for preparing and using this medicine, in a sealed envelope, to any one who needs it, *Free of charge.* Address JOSEPH T. Recipes.

Tomatoe Figs.

The Scientific *American* says: The following recipe for making tomato figs is said to be excellent:

Collect a lot of ripe tomatoes about one inch in diameter, skin and stew them in the usual manner; when done lay them on dishes, flatten them slightly, and spread over them a light layer of pulverized white or best brown sugar; expose them to a summer's sun, or place them in a drying house; when as dry as fresh figs, pack in old figs or small boxes, with sugar between each layer. If properly managed the difference cannot be detected from the veritable article.

How to Clean Kid Gloves.

The Peoples' *Journal* says: To clean kid gloves, have ready a little new milk in one saucer, a piece of white soap in another and a clean cloth folded two or three times. On the cloth spread out the glove smooth and neat. Take a piece of flannel, dip it in the milk, then rub off a good quantity of soap on the wetted flannel, and commence to rub the glove toward the fingers, holding it firmly with the left hand. Continue this process until the glove, if white, looks a yellow, though clean; if colored, till it looks dry and spoiled. Lay it dry, and the operator will soon be gratified to see that the old glove looks nearly new. It will be soft, glossy, smooth, and elastic.

NEWPORT DAILY NEWS.

THURSDAY, February 9, 1871.

Affairs at the Capitol.

The committee have at last reported in favor of repealing the Income Tax, notwithstanding Secretary Boutwell's protest to the contrary. This is as it should be, a tax loaded with all the machinery that there is attached to that, and bringing no more income to the Treasury than its ardent friends claim for this tax, ought to be made a thing of the past at once. It is thought that the bill will pass by a large majority. Mr. Hoar's Education Bill is before the House for consideration to-day. Should that bill be passed by the present Congress, it will create a new era for many of the Southern States. President Grant's message, in favor of placing the Prussian Mission on a par with the French and English Missions, is received with great favor by our German friends at the Capitol; and indeed it must have a welcome sound to all lovers of the German cause, as they see in it, an acknowledgement by our government, of the rise of Germany to the first rank among the nations of Europe.

The report of the West Point Investigating Committee carries the blame, for lack of discipline and for the disgraceful acts lately committed there, back of the authorities at the academy and throws it upon the rulers at Washington, as the sentences of a Court Martial providing for the dismissal of cadets, has almost universally been remitted. The report directs the restoration of cadets Baird, Barnes, and Fleckinger and the immediate dismissal of the leaders in the affairs of January, 3rd.

United Germany.

Once more, after a lapse of nearly three hundred years, are the people speaking the German language, united under one government. Torn asunder by ignorance, superstition and the bigotry of the Catholic Church, we see them united, an intelligent, educated and comparatively free people. The Government of this union is much like our own; each state controlling its own local interests and institutions, while ceding to the Central Government the control of national affairs.

This union is what our Teutonic brothers have long desired, and for which they have persistently labored, but which petty jealousies and rival tyrants have prevented until now. Little did Napoleon think in his mad zeal for war, that that very war was to be the means of building up in the heart of Europe, a nation composed of 34,000,000 of the rightful and free people.

Paris.

From our latest foreign advises we learn that nothing has been gained in the way of peace since the commencement of the armistice. While on the contrary all things seem to be rapidly going from bad to worse. The people are still in imminent danger from starvation, the flour having given out, and other supplies coming in very slowly. One report says that the revitualling the city is hindered by the Prussians. This however must be received with some allowance as it comes from a French source. The power of the mob is increasing each day and the fear of violence makes the more respectable people long even for the presence of the Prussians for protection.

The committee still hold to the determination to submit to no cession of French territory, and rather than give up Alsace and Lorraine, will fight to the bitter end. The resignation of Gambetta, it is believed, indicates the abandonment of all hopes of a Republic and makes the restoration of the Empire certain.

Immigration.

The official data show a total immigration during 1870 of 284,715 persons, a decrease of 67,751 as compared with the year 1869. The decrease of German immigration was 50,000. The Swedish element increased 10,000. There came from Japan 74 persons against 63 in 1869; the Chinese decrease was 1,305, the entire Chinese immigration having been 11,563. Of the total immigration 24,000 went to Massachusetts and 12,000 to California, while 224,638 settled in New York.

Hand Writing.

Lord Brougham's hand betrayed much unconquerable restlessness of impulse.—His manuscript was a mass of hieroglyphics; and according to Dr. Blenkinsop, in all Mr. Cleve's extensive printing establishment in London, there was only one man competent to grapple with it, and he often gave up in despair.

A president of one of our popular railroads once wrote to an old farmer requesting him to remove some shedding along the line. The old farmer could not make it out, and believing it to be a free pass, used it as such for a year, none of the conductors presuming to dispute the construction he had put upon the scrawl.—*Oliver Optics Magazine.*

The Early American Press.

The first printing press was set up in Massachusetts, eighteen years after the landing of the pilgrims, and Stephen Day, was the first printer in this country. The first newspaper published in North America was the Boston *News Letter* started in April 1703, by John Campbell. The editor was then thirteen months behind the events in Europe. The second American newspaper was the Boston *Gazette*, printed by a brother of Benjamin Franklin, who afterwards published the New England *Courant*. Benjamin Franklyn himself contributed many essays to the *Courant*, The New York *Gazette* was issued by William Bradford in October 1725. It was printed on a half sheet of foolscap, and a large volume of these papers is to be found in the City Library. The first great libel suit tried in this city was one instituted by the government against the New-York Weekly *Journal*, a "campaign" paper issued in 1732 to oppose the colonial administration of Governor Crosby. The proprietor of the *Journal* was acquitted amid a scene of great enthusiasm, and the freedom of the city was presented to his counsel Andrew Hamilton, of Philadelphia.—*Extract from Lecture by W. L. Stone.*

Suit has been brought on a note for $3,180 in Portsmouth, N. H., and the defendant pleads that the note was given in part payment for a brewery and that as a portion of the property purchased consisted of ale, the sale of which is declared illegal by the law of the State, the note is void.

At a meeting held February 1, 1871, in the rooms of the Massachusetts Hospital Life Office, to consider the question of sending a cargo of provisions to France, for free distribution, it was unanimously decided that an appeal ought to be made to the citizens of Boston to raise, at once, by subscription, a fund.

The Tribune says the greatest gain to the Woman Suffrage cause, during the past year has been the accession of Daniel McFarland to the ranks of their enemies; and it advises the advocates of Female Suffrage to engage and pay him for lecturing everywhere, as the opponents of the principle would cling to the other side out of sheer disgust with the lecturer.

A daughter was born to the wife of Mr. Hoxie, of Orneville, Maine, on January 28th. A Bangor paper says this is the fifth generation now living. The child has four grandparents, five great grandparents, and one great great grandparent. Its great great grandmother (Mrs. Sarah Brown) lives in Palmora, in this State, is 78 years old, hale and hearty. She has the privilege of saying, "Arise, daughter, and go to thy daughter, for thy daughter's daughter hath a daughter."

Decline of Shipping.

The following table gives a comparison of our tonnage with that of England for the last fourteen years. Surely it is time that Congress was fully awake to the true state of things:

Years.	Total tonnage American entered at ports of the British Empire.	Total tonnage British entered at ports of the United States.
1856	2,816,250	886,190
1857	2,184,390	965,570
1858	2,207,404	918,882
1859	2,124,537	1,690,047
1860	2,019,907	1,200,406
1861	2,741,544	1,149,097
1862	2,142,117	1,152,866
1863	1,863,179	1,851,476
1864	1,254,375	1,977,713
1865	1,01[illegible],333	1,756,662
1866	1,106,357	2,410,900
1867	1,231,975	2,406,309
1868	1,315,901	2,316,741
1869	1,900,000	2,461,797
1870	....	2,759,655

Thus it appears that prior to 1863 the tonnage of American vessels entered at ports of the British Empire was double the tonnage of British vessels entered at ports of the United States, but that since 1865 the tonnage of British vessels entered at ports of the United States has been double the tonnage of American vessels entered at ports of the British Empire.

Father and son keep within a thousand miles of Hartford a shop where whisky and other decoctions of like character are sold by the glass. One morning recently the old man had got his keg full at so early an hour that by nine o'clock he was laid out on a chair, as drunk as a boiled egg. At this particular period of the old gentleman's existence, two chaps entered the place and called for whisky. The son stepped behind the bar and put the bottle down.

"Is this good whisky?" asked one of the customers.

"I don't know myself," replied the son, "but there's the old man; he's been drinking it steady for two years past, and he ain't dead yet."

SOUND ADVICE.—While you are living, be very kind, generous, and do as much good as you can to your relations; but leave them nothing when you die, and you will be sure to be missed by them.

About Home.

STATION HOUSE.—Three persons were provided with lodgings at this institution last night.

THE OPERA HOUSE.—A good house greeted the appearance of Mr. John E. Owens last night.

WITHDRAWN.—The complaint against George Briggen, noticed in our issue of yesterday, has been withdrawn from prosecution, and arranged amicably by the parties.

THE WALKS.—It was said by those who *knew*, that the sidewalks were in a slippery condition last evening, especially so for rubbers.

CORRECTION.—Our Providence correspondent inadvertently stated that our townsman Col. Higginson was prevented by sickness from lecturing in the city. It was by sickness of a member of the family.

SNOW BALLING.—This is a harmless sport when indulged in innocently, but sometimes this is not the case. We hear of a case this morning, where a little girl, 8 or 9 years of age, was struck upon the eye with such force as to throw her to the ground and had to be lifted therefrom by a passer-by.

THE WEATHER—We hope our readers will not think that we are not endowed with prophetic vision; for when we stated yesterday, "more sleighing in prospect," it was the intention to have a snow storm; the plan was immediately changed however, and we took a rain storm instead. This morning as our pedestrian friends go past, their walk reminds one of the days before Temperance laws came in vogue.

EUREKA LODGE.—The following named persons are officers of this lodge for the ensuing quarter:

W. C. T.—G. F. Northup.
W. V. T.—Helen Langley.
W. S.—Murdock Holmes.
F. S.—M. T. G. Stacy.
T.—Geo. Albro.
C.—J. N. Northup.
M.—Chas. P. Bowler.
I. G.—L. Martin.
S.—Jas. R. Knowles.

NASBY'S LECTURE.—Remember the lecture at the Opera House, to-morrow evening—Show the committee that their enterprise in securing a first-class lecturer and in trying to redeem Newport from the character of a non-lecture going community is appreciated. We venture to assert that all who attend will be amply rewarded and gratified; and those who miss this unique and instructive entertainment will have missed the very best thing of the season.

Providence.

We learn from the *Press*, that Rev. E. H. Capen will be installed as pastor of the first Universalist Church this afternoon, at half past two o'clock. Rev. O. H. Leonard Goddard, Professor of Divinity in Tufts College, will preach the sermon. Rev. Henry I. Cushman, junior pastor of School street Church, Boston, and other distinguished clergymen will take part in the services. There will also be a service in the evening at seven, o'clock, at which Rev. A. W. John Chamfri, President of Dean Academy, will preach.

Also that Olive Branch Temple of Honor will dedicate its new hall on Exchange place, by a festival in Howard Hall this evening the admission to which is free, for all those who are successful in securing tickets.

The receipts of the John E. Owens' entertainments, for the two evenings. were about $1500.

Fall River.

The *News* says that Representatives Cooner and Fairbanks both spoke in the House of Representatives, Monday, against the bill favoring the opening of Public Libraries on Sunday and all three of our Representatives voted against it Tuesday. Also, Representative Buffinton of Somerset. Brownell, of Westport, voted in the affirmative.

Messrs Easton & Milne sold, yesterday ten shares of Mechanics mill stock at $120, and on Monday, five of Merchants at $118. They have also sold recently six shares of Metacomet Bank stock at $124.

New Bedford.

The annual meeting of the Boston and Fairhaven Iron Works Corporation was held Tuesday afternoon. All the officers were re-elected.—*Standard.*

The Odd Fellows of this city and Fall River visited Taunton Tuesday evening, and were handsomely entertained by King Philip Lodge, of that city, with a supper and other exercises. Speeches were made by gentlemen from each of cities represented, and those by William H. Taylor and Rev. I. H. Coe were specially good. The delegations from that city and Fall River returned home on special trains.

Tuesday morning a daughter of Margaret Bowe found in her mother's trunk a gold watch, chain, a pair of sleeve buttons, a gold ring, two cuff pins and a gold pencil, and at once handed them to her employer, who left them with the City Marshall. The watch, chain, buttons and ring have been identified by Hyram Webb as the property of Mrs. William Whippey. They were stolen in August, 1869, at Mr. Webb's residence, where Margaret was then employed as a domestic. She is now in jail awaiting trial for arson. The pins and pencil are now at the Central Police Station.—*Standard.*

A GREAT SUCCESS.

The last rail was laid and the last spike was driven on the Burlington, Cedar Rapids and Minnesota Railway, near Solon, last week This completes the Grand Trunk of a Railway which brings St. Louis and St. Paul to miles nearer than ever before, and shortens by 60 miles the route from St. Paul to Chicago. A contract has been made between the Chicago, Burlington and Quincy Railroad sets apart forty per cent. of the gross earnings on business received from the Burlington, Cedar Rapids and Minnesota Railway, to be invested at par in the First Mortgage Bonds of the latter road. When it is known in the market that, in this way, James F. Joy, of Detroit, buys the bonds of this road every day, few will hesitate to take the security.

Three trains between St. Paul, St. Louis and Chicago run daily. Henry Clews & Co., Bankers, New York, are the Financial Agents of the Company, and meet with great success in the sale of these Bonds.

GENERAL ASSEMBLY.

January Session at Providence.

WEDNESDAY, Feb. 8.

Senate.

The special order of the day, the joint resolution relative to a Constitutional Convention, was taken up.

Mr. Freeman, of Smithfield, stated that if proper amendments were introduced in this Senate, they would have his hearty support, but knowing that the Constitution provided a way for its own amendment, he could not vote for this resolution.

Mr. Dean said the only object of the resolution was for this General Assembly to take the opinion of the people on the question of amending the Constitution; nothing more nor less.

Mr. Powel remarked that the Senate had been sworn, every man of them, to uphold this Constitution. They had no right to contract or expand it, and in his opinion, when a legal document provided a way to do anything, it excluded every other way.

Mr. Corliss, of North Providence, asked for information. He thought the question was brought down to the simple point whether anything was to be gained by the Convention when called, which could not be gained by a voluntary association or gathering of the people.

Mr. Smith of Barrington, favored the resolution, which he did not think conflicted with the provisions of the Constitution providing for amendment to that instrument.

Mr. Hart of Providence, thought there was no occasion for discussing, at present, questions of amendment to the Constitution. If he understood this resolution, it was simply intended to ask the legal voters of the State an expression of their opinion as to whether in their judgment there should be called a Constitutional Convention.

Lieutenant Governor Stevens expressed himself ready to vote to go the people and ask them for power to call a convention.—Having taken an oath under the Constitution, he did not propose to vote for anything that would seem to "be getting around" the provisions of the Constitution.

Mr. Powell thought it would be treason to undertake to do what the Constitution forbade them doing. He hoped that the Senators who proposed to vote for this resolution would look well and see whether they were not endeavoring indirectly to contravene the provisions of the organic law of the State.

House.

Mr. Steere, of Scituate presented the petition of Daniel A Clarke, Jr., and twenty-five others for the erection of fishways and stairs, on the dams of the rivers of the State. Referred to the committee on fisheries.

Mr. Miner, of Cranston, called up the bill allowing respondents in criminal cases to testify in their own behalf, the question being on Mr. Sheffield's amendment, to except respondents accused of Murder.

Mr. E. Clarke, of South Kingstown, opposed the amendment, and spoke strongly in favor of the bill as originally proposed, claiming that it is a reform demanded by the best interests of justice.

Mr. Greene, of Warwick, quoted from the State Constitution the various safe guards thrown around the respondent in criminal cases and in view of his long experience considered them sufficient to protect the innocent, and to guard against an innocent person's ever being convicted of crime. He claimed that under the proposed law the innocent man, unaccustomed to appearing before public bodies and unacquainted with courts, would not stand a shadow of a chance on the witness stand to vindicate his innocence, while the adroit rogue, who has been tried before and is acquainted with court proceedings, will baffle the most skilful cross examination. He thought the bill would give a motive to the wrong doer to kill the injured person, that he alone might testify, and characterized it a dangerous innovation instead of a reform. He hoped that the change in a vital law, a law which protect life and property, would not be made.

Mr. Sheffield, of Newport, claimed that this was one of the most important bills ever before the General Assembly of Rhode Island, and to pass it, would be a step back towards barbarism, instead of, as is claimed by its friends, doing away with the last relic of barbarism. It puts a bounty on him who commits a high crime, to commit murder; it revives the old inquisition; it convicts the the innocent man by his own embarrassed testimony, and the refusal to give that testimony is construed against him.

The question was then taken on the amendment, which was lost, 14 yeas to 25 nays, and the act passed, as follows:

It is enacted by the General Assembly as follows:

Section 1. No respondent in a criminal prosecution offering himself as a witness shall be excluded from testifying because he is such respondent, and the neglect or refusal so to testify shall create no presumption against such respondent.

Mark of Cain.

BY HENRY WARD BEECHER.

Questions rain down like an equinoctial storm! The desire to know all about *Cain* seems to have broken out like an epidemic. As if forsaken by Fortune, I was left to suggest, in my former article, that people should ask questions, on the points which were questionable; and, in truth, have been taken at my word, both as respects him and his wife.

But not to be daunted by the fact that no one knows anything about the matter more than lies upon the face of Scripture, I shall give in few words some of the speculations which have prevailed in former times, when people *thought* they knew a great deal more than they really did.

1. As to Cain's offence. It was generally held by the Fathers: 1. That he was too tardy and reluctant in making his offering. 2. That he did not make a choice of the best. St. Cyril says that he kept the plump ears and the fine apples, and offered to God the slenderest ears of grain and the worm-eaten apples. Sermons used to be preached from Cain's example, on giving to the church and to convents the poorest things and keeping the best for one's self.

2. What was the mark set on Cain? Nobody knows. But here are some of the things which have been written and believed: Some thought that God printed a letter upon Cain's forehead. Others say that the mark consisted of three letters which, in Hebrew, compose the name of the Sabbath, or that it was the sign of the cross; but some have thought that it was not a mark on Cain's person, but that Abel's dog, that guarded his flock, was given to Cain as a defence! Others have thought that a leprosy covered Cain's face; others, that his eyes became bloodshot, and rolled in an unnatural manner; others say that he was subject to such a trembling that he could hardly lift his food to his mouth. It is a little singular, in regard to the last, that the *Septuagint version* of the Old Testament renders the passage, "Thou shalt be a vagabond, and a fugitive," by these words, "Thou shalt be doleful and trembling." Others says say that Cain had a horn grow upon his forehead.

Our readers can pick out of these to suit themselves, with a reasonable certainty that whichever mark they take it will not be the right one.

3. How did Cain die? An old tradition says, "Being very decrepit and blind, he was sitting one day in a close thicket.—Lamech, who was then a hunting, being advised that something stirred in the bush, ran thither, and fancying some beast was lodged there, let fly an arrow and killed Cain."

But many others were unwilling to let Cain die in so proper a manner. So they affirm that he was killed by the fall of a house. Others insist that he was drowned in the great and general deluge. There were not wanting those who said that Cain killed himself. Of one thing only are we positive, namely, that Cain died, and has been soundly dead ever since.

One may see from this single instance how the sacred Scriptures have been interpreted, or added to, by men who allowed fancy or ingenuity to take the place of reasonable evidence. But we need hardly go far to find the same thing in our own day. Surely the best of Books has suffered the worst of treatment.

FOWLS FOR GENERAL PURPOSES.—Everything taken into consideration, I believe there is no better foul than the Brahmas.—They are good layers both summer and winter, and I think will thrive on as little feed as any breed we have which I am acquainted with. I have a flock of about eighty light Pea-Comb Brahmas, which I give only half an ear of corn once a day, and the scraps from the table, and they have laid all winter. They are very easy fowls to raise and very hardy. The Brahma is a good setter and mother, and for a table fowl they have no equal. Their flesh is very white, tender and juicy, and full as good for the epicure in my opinion, as a turkey; and a good fair Brahma is as large as a small turkey, weighing at maturity from eight to fourteen pounds.

The Brahma, when well bred is a handsome fowl. Take a flock of about seventy-five Brahmas on the lawn pasturing, and they look more like a flock of sheep than fowls, and then to see them marching into the roost at nightfall, one after another, is a sight worth seeing. They are a very docile fowl, and bear confinement well; for they are not of a roving nature. They cannot fly over a common board fence, for their bodies are heavy and their wings very short and rounding at the point, so that they cannot support the body. But still there are other fowls with good points as well as the Brahmas; but my honest opinion is that the pure Brahma is fairly entitled to claim to have more of them than any other breed of fowls we have, and if any of our readers have any breeds which they think are better than the pure light Pea-Comb Brahma, everything taken into consideration, we would like to hear from them.—*Western Farmer.*

MANAGEMENT OF OXEN.—The *Stock Journal* has the following sensible suggestions on this subject, which not a few of our farmer readers will do well to heed: A generous diet is necessary, to keep up the spirit and ability of cattle, when there is hard work to be done. Great and permanent injury is the result of niggardly feeding and severe toil, exacted from the uncomplaining animal. His strength declines, his spirit flags, and if this treatment be continued, he rapidly becomes the stupid, moping brute which is shown off in degrading contrast with the more spirited horse, that performs, it may be, one-half the labor on twice his rations. The ox should be as little abused by threats and whipping, as by stinted feed and overtasked labor. Loud and repeated hallooing, or the severe use of the lash, is as impolitic as it is cruel and disgraceful.

We never witness this barbarity without wishing the brutes could change places, long enough at least to teach the biped that humanity by his own sufferings which his reason and sensibility have failed to inspire. Clear and intelligible, but low and gentle words are all that are necessary to guide the well-trained, spirited ox. The stick, or whip, is needed rather to indicate the precise movement desired, than as a stimulant or means of punishment. The ox understands a moderate tone more perfectly than a boisterous one, for all sounds become indistinct as they increase. It is a great advantage to have oxen well trained to backing. They may soon be taught by beginning with an empty cart on a descent; then on a level; then with an increasing load, or uphill, till the cattle will back nearly the same load they will draw.

The Articles.

Weed Sewing Machine, Decker & Vose pianos etc. The prices? Extremely moderate. The quality? First class. The place? Hibbard & Hawkins' No. 199 Westminister street, Providence.

The Cable Screw Wire Boots and Shoes are growing daily in popular favor. Their guarantee not to rip means something. Of 142,000 pairs manufactured by two firms in Massachusetts last season, and warranted, *not a single pair was returned.* Durability, comfort and economy commend them to the public. All prominent boot and shoe stores have them.

THE RAPID AND UNIVERSAL POPULARITY OF COLGATE & CO'S TOILET SOAPS, is simply due to their excellence. They are conscientiously made of the best and purest materials, and are always what they pretend to be. Ladies are so often cheated in purchasing, that when they find one thing they can rely upon they stick to it.

Fresh Garden, Flower, Fruit, Herb, Tree & Shrub, and Evergreen Seeds, prepaid by mail, with directions for culture. Twenty-five different packets of either class for $1.00. The six classes $5.00.

50,000 lbs. Evergreen and Tree Seeds; Apple, Pear Cherry, &c.; Grass Seeds; Beet, Cabbage, Carrot Onion, Squash, Turnip, and all Vegetable and Flower Seeds, in small or large quantities; also small Fruits, Stocks, Bulbs, Shrubs, Roses, Verbenas, &c., by mail, prepaid. Suggestions for the Season.

Thousands regard the winter as a season of trials: and the truth is, that if there is a weak point in the system, winter is pretty sure to find it out. Constitutional tendencies to disease are generally aggravated by damp and cold. (Rheumatism sometimes lies *perdu* all the summer and fall, to pounce upon its victims in the season of cold.) As a means of fortifying the body against all the diseases which prevail most extensively in winter, Hostetter's Stomach Bitters cannot be too urgently recommended. There would be the fewer cases of pulmonary complaints tending to consumption, if all feeble systems were invigorated during the season with a course of this inestimable vegetable tonic and alterative. Constipation, indigestion torpidity of the liver, and a general sluggishness of the secretive organs, very generally prevail at this period of the year. To all these ailments experience (the trustworth of all mentors) teaches us that the Bitters is a reliable remedy. Warm clothing is a good external defense against atmospheric cold and moisture, but vigorous activity in the vital organization which generates heat and delivers it to the surface, is also essential to health, and this activity is secured through the operation of the Bitters. The skin sympathizes with the stomach, and if digestion is regular and perfect the exterior circulation will be brisk, and damp and cold may be encountered with comparative safety.

If you have a discharge from the nose, offensive or otherwise, partial loss of the sense of smell, taste or hearing, eyes watering or weak, feel dull and stupid or debilitated, pain or pressure in the head, take cold easily, you may be sure you have the Catarrh. Thousands annually, without manifesting half of the above symptoms, terminate in Consumption and end in the grave. No disease is so common, more deceptive or less understood by physicians. Dr. R. V. Pierce, 133 Seneca street, Buffalo, N. Y., is the sole proprietor of Dr. Sage's Catarrh Remedy—a perfect specific for Catarrh, "Cold in the Head," or Catarrhal Headache, which he sends to any address by mail on receipt of sixty cents. Sold by Druggists. n&j

A LADY writes:—"Before having tried Pratt's Astral Oil, I was prejudiced against it. But I was finally induced by a neighbor to buy some. That was six months ago; since then I have been burning it constantly. Two nights ago, one of my little girls, while playing, upset the lamp, scattering the oil over her and her sister, but no harm resulted, the oil neither taking fire nor exploding. I am satisfied that the oil is perfectly safe."

The above is but one of many similar testimonials. Don't endanger our lives by burning kerosene, but buy Pratt's Astral Oil. By using this, danger is guarded against.

The "ASTRAL OIL" may be obtained of P. BRYER, 15 Broad Street, Sole Agent for Newport, R. I. feb9 eod-1w

BACKACHE.

ALL DISEASES OF THE URINARY ORGANS, Inflammation of the Kidneys, Inflammation of the Bladder, or any affections that interfere with the functions of these organs always cause great pain and weakness in the small of the back and loins. To relieve this, a diuretic medicine is necessary.

Dr. Sargent's Backache Pills

have been thoroughly tested for the past thirty-eight years, and pronounced the most efficient diuretic ever discovered. They are purely vegetable and contain no mercury. Sold by druggists. Sent by mail on receipt of price, 50 cts. per box.

TELEGRAMS.

European Dispatches.

BORDEAUX, Feb. 8.

Numerous official despatches have been received in this city from the municipal authorities of Lille, Douai, Arras, and the towns in the northern departments of France, protesting against the decree recently issued by M. Gambetta.

The majority of the citizens who are possessed of influence and wealth voluntarily offer their aid to unburden the Government of the expenses which would necessarily be incurred by protracting the war.

LONDON, Feb. 8.

There is a strong and growing probability of the present demands of Germany against France being subjected to a great modification by the former nation. It is thought that Germany may possibly demand a sum of forty millions sterling, and no war ships as has been reported. This sum, together with the annexation of the provinces of Alsace and Lorraine, will possibly constitute the entire war claim of the German Government.

LONDON, Feb. 8.

The Brussels correspondent of the Telegram says that Otto Russell, the British representative at Versailles, has been instructed to sustain the demand made by M. Favre for an extension of the armistice. Its prolongation is expected.

LONDON, Feb. 8.

S. M. Carnot, Commissioner for the defence of Formandy, has resigned.

The Prussians under General Von der Tann occupy the most of Burgundy.

General Polissier on the 5th inst. evacuated Louis le Sannier.

FROM WASHINGTON.

WASHINGTON, Feb. 8.

The Senate Foreign Relations Committee agreed today to the House bill for holding an international exhibition at Philadelphia in 1876, in connection with the celebration of the centennial of American Independence.

The Senate agreed to postpone all other business and take up the bill for an air line railroad between New York and Washington. The vote on taking up the bill indicates that it will pass the Senate. Should it get through there, its friends in the house believe they can pass it at the next session.

The Chorpenning fraud resolution was reported today and passed the Senate.

The Pacific Railroad Committee will not take up the Southern Pacific Railroad bill until the return of the Chairman of the Committee.

The Ways and Means Committee decided today, notwithstanding Secretary Boutwell's letter submitted yesterday, to report a bill repealing the income tax. The vote stood five to four, as follows:

For repeal, Hooper, Kelley, Brooks, McCarthy and Blair; against, Orth, Allison, Marshall and Maynard.

The Military committee adopted the report in the West Point cadet matter. It provides for the appointment of a court to try all parties engaged in the outrages, and those who are found guilty will be dismissed.

The Commerce Committee of the House today decided to ask for a special day to be appointed by the House to receive reports from that committee.

THE TERRIBLE RAILROAD ACCIDENT.

How the Disaster Might Have been Prevented.

NEW YORK, Feb. 8.

The number of lives lost by the Hudson River Railroad accident is now estimated at from twenty-four to fifty. Eighteen bodies have been recovered, and seventeen of these have been identified. Congressman Farwell and wife, of Chicago, were on the train, but escaped with the loss of their baggage.

LATER.

Two more bodies are yet to be found—Simmons, the Engineer, and Lawrence Mooney, the brakeman, which makes twenty-one victims in all. A child's underskirt, marked Ella Shields, was found on the ice

NEW 7-30 GOLD LOAN!

Safe! Profitable! Permanent!

JAY COOKE & CO.

Offer for Sale at Par and Accrued Interest the

First Mortgage Land Grant Gold Bonds

OF THE

Northern Pacific Railroad Co.

THESE bonds are secured, *first*, by a First Mortgage on the Railroad itself, its rolling-stock, and all equipments; *second*, by a First Mortgage on its entire Land Grant, being more than Twenty-Two Thousand Acres of Land to each mile of Road.

The Bonds are free from United States Tax; the Principal and Interest are payable in Gold—the Principal at the end of Thirty years, and the Interest Semi-annually, at the rate of SEVEN AND THREE-TENTHS PER CENT. per annum.

They are issued in denominations of $100, $500, $1,000, $5,000 and $10,000.

The Trustees under the Mortgage are Messrs. Jay Cooke, of Philadelphia, and Edgar Thomson, President of the Pennsylvania Central Railroad Company.

These Northern Pacific 7-30 Bonds will at all times before maturity, be received at TEN PER CENT. PREMIUM (or 1.10), in exchange for the Company's lands at their lowest cash price.

In addition to their absolute safety, these Bonds yield an income larger, we believe, than any other first class security. Persons holding United States 5-20's can, by converting them into Northern Pacifics, increase their yearly income *one-third* and still have a perfectly reliable investment.

HOW TO GET THEM.—Your nearest Bank or Banker will supply these Bonds in any desired amount, and of any needed denomination. Persons wishing to exchange stocks or other bonds for these, can do so with any of our Agents, who will allow the highest current price for ALL MARKETABLE SECURITIES.

Those living in localities remote from Banks, may send money, or other bonds, directly to us by express, and we will send back Northern Pacific Bonds at our own risk, and without cost to the investor.—For further information, pamphlets, maps, etc., call on or address the undersigned, or any of the Bankers employed to sell this Loan.

HOT AIR

FURNACES!

The points first to be considered in selecting a HOT AIR FURNACE (all else being equal) are, first: Is the air healthy? And second: Will it not draw and warp the furniture and woodwork?

IN THESE TWO POINTS WE CLAIM PREEMINENCE FOR THE

GOLDEN EAGLE FURNACE,

While its Heating Capacity is fully equal to that of any other Furnace in the market and superior to any so-called BASE BURNER, yet the AIR is so humid as not in the least to impair the health of the most delicate person; nor in the slightest degree draw or warp the woodwork or furniture of the house.

Flowers thrive where this furnace is used as they do in the garden in summer.

Singing and conversing is easier. In short, it is the Healthy, the Most Economical, the Most Durable and the best.

We have set them in Dwelling Houses, School Houses, and Churches in this city for the past three years, and have testimonials of some of *our leading citizens* to substantiate our statements.

Ask for the Golden Eagle Furnace; take no other!

UNPAID BILLS

THE UNDERSIGNED gives his public thanks to those of his customers who most considerately paid their bills, due January 1st, 1871, in the early days of the month.

By this same public method he asks the attention of those who have not paid and requests as a favor that they will pay before the 20th instant.

The undersigned is perfectly aware that all that is needed is a hint to call attention, knowing as he does that the public mind is so much interested in the French, Prussian war and the Hook and Line vs Trap Controversy in the Legislature, that such trifling matters as unpaid bills escapes the attention of many.

A reason why a piano was not saved at a fire was because none of the firemen could play on it.

The University Medicines

are not patent medicines, but the Favorite Prescriptions of the New York Medical University, an Incorporated Institution of the State, and are prepared in consonance with the views of a number of distinguished living American practitioners, who believe that the time is come when educated physicians should arise and make a decisive effort to overthrow the health-destroying system of quackery prevailing in every town and city, and substitute scientific, responsible remedials—made in accordance with the principles of Medical Chemistry—in place of the worthless or dangerous patent Medicines flooding the country.

A knowledge of Medicine and Chemistry, as profound as that of any physicians that have ever lived, enables us to warrant these Compounds to be the most perfect Curatives for disease ever placed before the people. What may seem almost incredible is the astonishing rapidity with which they cure diseases hitherto considered incurable.

They are combined, with great care, from fine Chemicals, with a true knowledge of their therapeutic properties and physiological effects. Nothing cheap, impure, or poisonous, has been tolerated in their composition.

They are the finest prescriptions of a body of eminent American professors, and have been thoroughly tested in one of the most extensive and successful practices of the day.

The University Medicines

are to-day sweeping the country from Maine to Mexico, becoming the leading Health Restoratives, and rapidly superseding the old poisons, nostrums, and nauseous drugs, and their sale is becoming enormous. They are now regularly prescribed by over one thousand physicians.

No Forged Certificates Required.

No medicines ever originated have received so many genuine certificates of cures in so brief a space of time. We are daily receiving letters from every part of the country, from patients and physicians, recording the most astounding cures performed, by these remedies. Many of these cases had been considered beyond the power of cure. We think that we could publish these letters for the encouragement of the afflicted, but a book of 1,000 pages would not contain them.

From our Letter-Files.

In order to convince the skeptical, we this day publish the following opinions selected from many thousands voluntarily given by intelligent, respectable people who have used the UNIVERSITY MEDICINES, and guarantee that these magnificent remedies are totally unlike the patent nostrums of the hour.

SS.—Personally appeared before me, J. W. Scott, President; L. Hassey, Vice-President; John G. Howard, Treasurer; and George Powell, Secretary of the New York Medical University, and made oath upon the Holy Evangel of Almighty God, that the following are genuine, unsolicited extracts, taken from original letters being daily received at the Institution. WM. B. RIBLET, Notary Public, Corner Ninth street and Fifth avenue, New York.

SURGEON GENERAL'S OFFICE,
WASHINGTON, March 10, 1870.

Professors—Please forward my second order for University Medicines. I am pleased to say that I have found them of great service in the treatment of patients under my charge.

———, A. A. Surgeon, U. S. A.

180 Congress St., Portland, Me., May 1, 1870.

Professor Scott and Associates—The UNIVERSITY MEDICINES are rapidly revolutionizing the practice of medicine in Maine. * * * I have over five hundred patients. * * * Here, in Portland, I have taken away two-thirds of the doctors' patients. * * * I have nearly two hundred agents, and am establishing ten agencies a day. * * * I shall sell $200,000 worth of UNIVERSITY MEDICINES in Maine this year. * * * I am worn out with hard work. * * * I enclose you a number of certificates of great cures. * * * I will pay $1,000 if one of them can be found that is not genuine.

F. STAPLES, State of Maine Agent.

Mobile, Ala., May 5, 1870.

Gentlemen—Send on a full line of your goods by steamer as soon as possible, as we intend to make the sale of the UNIVERSITY MEDICINES a specialty, having more confidence in their curative properties than any medicines we have ever sold. In fact, we have the most unbounded belief in them, and always recommend them to our customers in preference to all others we have ever known. We have recently made some astonishing cures in Mobile of Scrofula, Catarrh, Kidney Disease, etc., with your Cancer-Plant, Lithia, Specific, etc.

L. D. & B. G. GOULD,
Druggists, thirty-five years' standing.

From a distinguished member of Congress.
WASHINGTON, May 4, 1870.

My Dear Doctor—Your medicines seem to act favorably on the nerves, as well as the blood. * * * I am much improved. * * * My limbs are wonders of medical science. * * * I have every faith in your medicine and skill. * * * I believe that you are enlightened of God to do a great work, and that you will do it. * * * You have done a great deal for me. * * * You understand your business. * * * You are the second physician whom I have confidence in. * * * I would not trust the blockheads down here to give physic to my horse. * *

BEARDSVILLE, Pa., April 18, 1870.

To Professor Scott—Enclosed please find sketch of the case of William Carson, of this place, aged 48.—Disease, indurated scrofulous ulcer of the right leg, painful and gangrenous, of 25 years' standing. It had exhausted all the skill of numerous physicians during that time.

This terrible picture was his condition on the 1st of February, 1870.

By the use of the Cancer Plant Extract, Healing Blood-and-Bone Ointment, and May-Apple Pills, he is now entirely cured.

This case has attracted remark and amazement.—He being a poor man, and one turned out to die, the medicines were furnished at cost—$15.

Besides, your Five Minute Pain Curer and Neuralgo-Rheumatic Elixir have straightened his neck, drawn to an angle of 45 degrees.

I took him in hand, while all the doctors laughed at me, and considered it a good joke to attempt to cure this poor man; but, thank God, I have cured all his maladies, restored his strength, and made him a well person with the UNIVERSITY MEDICINES.

I think, Doctor, that God has inspired you to bring forth remedies for the cure of His afflicted children that nothing in the shape of medicines has yet approached. SAMUEL E. GREEN.

1,655 THIRD AVENUE, New York, June 23, 1870.

Professor Scott and Associates—It is truly gratifying to know that science has at length triumphed over quackery. I have been using the UNIVERSITY MEDICINES in my regular practice for some time with the most remarkable success. Disease of every character rapidly succumbs to their healthful influence. You are evidently destined to overthrow the old practice of medicine.

CHAS. K. DRAPER, M. D.

Dr. Scott, &c.—For years I have suffered with Cancer of the breast. What my sufferings were, tongue can never tell. In a dying condition I came to you, and commenced using your Cancer Plant and Ointment. Almost immediately, all pain ceased.—The tumor has vanished, and through the providence of God, I am a well woman. In my deep gratitude, and from a sincere interest in the welfare of those similarly afflicted, I shall be pleased to answer all questions.

New York, Oct. 12, 1869. MISS E. CAREY.

Three bottles of your Hydrated Oxymel cured me of Consumption, although our Bridgeport physicians said that I could not be cured.

GEORGE D. REYNOLDS.
Metallic Cartridge Company, Bridgeport, Conn. March 1, 1870.

Professor Scott—Through the recommendation of C. W. Huntingdon, Esq., of Hartford, who has successfully used your Lithia as a remedy for disease of the Kidneys and Liver, I am induced to order some.

Unionville, Conn., Jan. 1, 1870. L. M. MASON.

Dr. Scott—Three months ago, I was attacked with Heart Disease. Our family physician pronounced it Neuralgia of the heart, and prescribed medicine without benefit. I also ascertained that I was affected with that awful disease, Spermatorrhœa. I forthwith obtained your Ethereal Phosphorus, and after taking four bottles was completely restored. Afterward I had pain in my back, which your Lithia cured. My oldest boy had the skin disease—Herpes—and doctored five years without relief. I gave him two bottles of your Cancer Plant Extract, and, thank God, he is well. WASHINGTON TYSON.

Pottstown, Pa., Jan. 5, 1870.

Derby, Conn., Jan. 21, 1870.

Dr. Scott—I came to the conclusion that you were trying to cure people, which is more than most Doctors do nowadays. I got a bottle of Lithia for my wife's kidney disease, which none could cure, and I found it helped her immediately. D. CAMP.

Towanda, Pa., April 17, 1870.

Dr. Scott—I have used your Extract of Cancer Plant for the blood, and pronounce it the chief of alteratives. A. N. NELSON.

165 North Main St., Providence, R. I.

Professors—Some of my friends and myself have used the UNIVERSITY MEDICINES, and found them satisfactory beyond our expectations.

From the well-known eminent Dr. Buckler Jones:
Baltimore, Md., Oct. 17, 1869.

I have a lady under my care with Cancer in the left breast. I recommended her to use your remedies, and with the most marked benefit and decided improvement in every respect.

J. BUCKLER JONES, M. D.

Ashland, Pa., 1870.

Dear Sirs—I have prescribed your Hydrated Oxymel for Bronchitis, and the Yellow Jessamine for Heart Disease, with great benefit, and am convinced of their efficacy. DR. JOHN B. KENNEDY.

Newport, R. I., Jan. 14, 1870.

"In Triumphe" should be the motto of your medicines. They have cured me after all our Newport physicians have failed. J. W. TILLSON.

14 Temple St., Hartford, Jan. 19, 1870.

Dr. Scott & Co.—Four bottles of your Ethereal Phosphorus have acted very strengthening to my system. R. KINZEL.

VERNON, Conn., May 4, 1870.

Doctors—I obtained eight bottles of your Ethereal Phosphorus for Spermatorrhœa. I am using it according to instructions, and feel a marked improvement. The lustre of my eyes has returned, and my whole countenance is brighter. It is slowly but surely curing me. Thanks to your wonderful medicine, it is helping me in many ways, etc., etc.

E. L. RISLEY.

FAIRPORT, Iowa, March 5, 1870.

Gentlemen—Your Katalpa Extract works magically. There is nothing equal. I have been affected with sick headache and liver complaint since last spring. Took three doses of your Headache Pills and can say they have cleared my head out as clear as a bell. I gave the balance away, saying: "Gentlemen, be convinced—I am." DR. MCKENNA.

YARMOUTH, Me., May 9, 1870.

Doctor—My mother is taking your Cancer Plant for Dropsy. Two bottles have done her more good than three years' doctoring from the best physicians of this place. * * * I hope the Lord will continue to prosper you in the good work.

MRS. SARAH A. WITTON.

88 MARKET ST., Pittsburgh, Pa., July 1, 1870.

Professor Scott—Although dispensing the UNIVERSITY MEDICINES but a short time, I am confident that where they are given a fair trial they will work wonders as curers of disease, and give general satisfaction. All the remedies are proving successful, and my practice is rapidly increasing.

J. M. YOUNG, M. D.

OFFICE BLANCHARD HAT CO.,
Palmer, Mass., May 4, 1870.

Professors—The University Medicines are effecting some remarkable cures here. Send me one dozen of Cancer Plant and Chemical Ointment.

A. B. CHAPMAN, Secretary.

PHILADELPHIA, June 23, 1870.

Professors—We have just been handed a bottle containing a piece of tapeworm, 13 feet 3 inches in length, which was brought away by the use of one bottle of Cancer Plant and the May-Apple Pills.

We also have just cured a lady of gravel of many years' standing, by using Lithia and Alkaline Resolvent. JOS. C. HARROLD.

I find the UNIVERSITY MEDICINES work like a charm in my practice.

W. Waynesville, Ky. W. H. BUSH, M. D.

And thousands upon thousands of others. Can any other medicines show a similar record?

Carbolic Tablets,

Prepared by DR. WELLS,

The most important discovery of the age is this wonderful Healing and Cleansing agent for all diseases or weakness of the Respiratory organs, Sore Throat, Sudden Cold, Hoarseness, Catarrh, Asthma, Dryness of the Throat or Windpipe, diseases of the Lungs and for all irritation of the mucous membrane.

All vocalists and public speakers who speak and sing without effort, use these Tablets, their effect in clearing the voice is simply astonishing as can be shown by numerous certificates.

DR. WELLS' CARBOLIC TABLETS act directly on the mucous membrane and should be promptly and freely taken in all exposure or violent change of weather, as they equalize the Circulation of the Blood and thus ward off all tendency to colds and lung difficulty.

The proprietors would say, all first-class medicines have their imitations, and they would

CAUTION the public against imposition by having other medicines thrust upon them in place of these admirable Tablets.

MANHOOD: HOW LOST, HOW RESTORED.

JUST PUBLISHED, a new edition of Dr. Culverwell's Celebrated Essay on the RADICAL CURE (without medicine) of Spermatorrhœa, or Seminal Weakness, Involuntary Seminal Losses, Impotency, Mental and Physical Incapacity, Impediments to Marriage, etc.; also, Consumption, Epilepsy, and Fits, induced by self-indulgence or sexual extravagance.

Price, in a sealed envelope, only 6 cents.

The celebrated author, in this admirable essay, clearly demonstrates, from a thirty years' successful practice, that the alarming consequences of self-abuse may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately, and radically.

This Lecture should be in the hands of every youth and every man in the land.

Sent, under seal, in a plain envelope, to any address, postpaid, on receipt of six cents or two post stamps.

Also, Dr. Culverwell's "Marriage Guide," price 25 cents.

PUMPS,

Bells, Keys and Skates,

Friends, to JOHN G. WEAVER, Jr's go,
And there you'll find if you do not know,
Pumps, both Copper, Iron, Lift and Force,
And all for a very little cost,
We also have a Pump that will not freeze,
You raise the handle—water comes with ease,
Bells, have we, and ones that'll ring,
And to your door your servant bring;
Keys, we have too, without number—
We'll fit them too without a blunder;
Skates we sharpen so you need not fall,
This pleases the children both great and small,
And now kind friends don't forget the place
For the BIG KEY is looking you in the face.
